Provide Resources

Think Cultural Health

A [Physician's Practical Guide for Culturally Competent Care](#) has been updated with more interactivity, literature and references. It is accredited for AMA PRA Category 1 Credit(s) where you can earn up to 9 free CME credits (physicians and physician assistants) or 9 contact hours (nurse practitioners), while exploring engaging cases and learning about cultural competency in healthcare.

Choosing Wisely

The American Board of Internal Medicine (ABIM) Foundation encourages practitioners and patients to "Choose Wisely." This initiative seeks to advance a national dialogue on

avoiding unnecessary medical tests, treatments and procedures. [Choosing Wisely](#) has downloadable informational resources for your patients and clinicians to promote shared-decision making.

Network Status Updates

To request the processing status of a network update (billing address change, practitioner load, service location change, name change, etc.) email our Contract Coordinators at NetworkManagement@NebraskaTotalCare.com. Please provide the Group NPI (Type 2 NPI) and the practitioner's NPI(s) as applicable.

If you have questions, please contact [Provider Relations](#).

Medicare Exclusion Code List

We understand that some codes may not be covered services by Nebraska Medicaid at this time or relevant to certain Nebraska providers. The intent in using these codes is to

include as many Medicare codes as possible to be sure that we were capturing all possible Medicare exclusion scenarios. See the [List of Medicare Exclusion Codes](#) on our website.

Important Prior Authorization Updates

(Effective Oct. 1, 2026)

As part of our ongoing work to improve the prior authorization (PA) process for both providers and members, Nebraska Total Care wants to share some important updates to our PA requirements. Our goal is to reduce administrative burden, simplify submission and approval processes, and facilitate timely access to appropriate, high-quality care.

Code change details can be found below. These changes may include:

- Removing PA requirements based on criticality of review and clinical need.
- Creating a more uniform set of prior authorization requirements across our markets and lines of businesses, including adding and changing some PA requirements, to simplify processes, reduce confusion for providers, and support future efforts to expand real-time responses to requests.

If you have questions about specific prior authorization codes or how these changes affect your practice, please reach out to your local [Provider Relations](#) representative.

SERVICE CATEGORY	PA RULE	SERVICES	PROCEDURE CODES
Behavioral Health	PA Required	Substance Abuse Treatment	H0011
